

STRATEGIC PARTNERSHIP

SOUTH GIPPSLAND AGED CARE

NMC PARTNERS WITH WOORAYL
LODGE AGED CARE PROVIDER

Ninety Mile Consulting (NMC) are pleased to announce the continuation of their partnership with Woorayl Lodge, Leongatha's only not-for-profit community-owned-and-operated aged care provider.

NMC have provided Woorayl Lodge with strategic advice and capital project support over the last two years, defining and enabling the development of their newly proposed \$30M residential aged care facility.

The proposed growth of Woorayl Lodge will underpin the organisation's long-term future and ensure they continue to provide best-in-class care well into the future. The proposed new state-of-the-art facility will provide 117 new places to cater for the growing market demand and future needs of the South Gippsland and Bass Coast communities.

4TH FEBRUARY 2022

Future of Regional Aged Care

AGED CARE FACILITIES THAT MEET THE NEEDS OF REGIONAL COMMUNITIES

The bespoke facility has been designed to meet the needs of our regional community and deliver greater health outcomes. The facilities' one-of design complements the Gippsland environment, providing residents with more open space and regional flora than traditional aged care facilities do, and a guaranteed vista from every window.

NMC have been engaged as project managers for Phase One of Woorayl Lodge's Capital Project and have been challenged with delivering a successful commercial outcome within a compressed timeline.

NMC continues to support CEOs and Boards of regional and suburban Victoria through their most difficult challenges. NMC combines deep industry experience and expertise in providing fact-based, data driven solutions to convert business challenges into opportunities.

"It is such a rewarding experience being able to support Woorayl Lodge with their strategic initiatives and provide support to bring their capital growth projects to life.

It's truly exciting to see our clients transform their businesses and make a lasting impact across their entire community."
